

Daniel Passantino

FullStack Developer JavaScript | Typescript | React | Node.js | Expres.js | PostgreSQL, MongoDB

✉ passantinodev@gmail.com

☎ +584121968978

📍 Nueva esparta, Venezuela

Profile

Full-stack Developer with expertise in full-stack development and specialization in web applications (MERN and PERN). I have participated in multiple projects both inside and outside of Henry, demonstrating a solid foundation in agile methodologies and proficiency with Git. Additionally, I possess advanced knowledge in data structures and algorithms, as well as frameworks for CSS and preprocessors such as Sass and Less. Currently, I am learning TypeScript and Next.js while working as a freelancer simultaneously.
